JUSTIFICATION AND APPROVAL FOR OTHER THAN FULL AND OPEN COMPETITION

Requisition Number: **PR10808939: E1 20 MB renewal**

**OVERSEAS CONTRACTING ACTIVITIES**

1. I recommend that Embassy Djibouti use other than full and open competition for the acquisition of:

   *Internet subscription renewal* for 20 megabytes per second (20 Mbps). The estimated cost is $183,729.

2. Nature and/or description of the action being approved.

   **E1 internet renewal subscription for 20 Mbps for US Embassy Djibouti.**

3. A description of the supplies or services required to meet the agency's needs.

   **This is annual subscription for E1 internet renewal subscription for 20 Mbps for US Embassy Djibouti.**

4. An identification of the statutory authority permitting other than full and open competition.

   41 USC 253(c)(1), FAR 6.302-1, Only one responsible source and no other supplies or services will satisfy agency requirements.

5. A demonstration that the proposed contractor's unique qualifications or the nature of the acquisition requires use of the authority cited (for sole source acquisitions; also required for unusual and compelling urgency where more than one offer will not be solicited).

   **Djibouti Telecom is a government owned company and is the sole source for internet and telephone service/lines in Djibouti.**

6. A description of efforts made to ensure that offers are solicited from as many potential sources as is practicable.

   **This will be posted on the Embassy website for 15 days even though this is Djiboutian Government Owned company and there are no other potential bidders.**

7. A determination by the Contracting Officer (CO) that the anticipated cost to the Government will be fair and reasonable.
Contracting Officer determined that the anticipated cost to the Government would be fair and reasonable. Even if we pursued a satellite provider for our services, no providers will be able to provide the services for the fund available. The average rate per Mbps ranges from $11,000.00 to $12,000.00 with the much slower service. Djibouti telecom’s rate per Mbps $2,715.25 with a much faster service.

8. A description of the market survey conducted and the results or a statement of the reasons a market survey was not conducted.

No market research possible there is only one source.

9. Any other facts supporting the use of other than full and open competition.

None.

10. A listing of sources, if any, that expressed, in writing, an interest in the acquisition.

None.

11. A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required.

If another company is allowed by the government to provide these service, we will consider it.
CERTIFICATIONS

I certify that this justification is accurate and contains complete data necessary to support the recommendation for other than full and open competition.
